Hi Mark,

John at KGW here. Given the relatively late timing of this release and our deadlines, can we get an early copy of the report under an embargo?

Also, are any of the EPA folks on the call actually here in Portland? If so, can we join them in person to get interviews on camera? These conference calls are fine for the newspaper folks, but they don't work well for broadcasters. Clearly it's a very important story to Portlanders and we want to make sure we can tell it as well as possible.

Thanks,

John
